Deloitte Watermark PDF

Handling offline documents

The risk of offline documents – The need to print documents raises the risk of information leaks. Including watermarks on printed documents may help to identify the when and who exported PDF version of documents from the secure review platform.

Working with offline documents – Applying branding or watermarks to documents often requires the involvement of vendors and this could cause delays. Deloitte Watermark PDF application allows users to apply watermark to an exported PDF version of documents from Relativity on the fly.

Save time and cost - Deloitte Watermark PDF is built into the Relativity work stream. This allows authorized parties to quickly export a watermarked PDF of a document or batch several documents at once. This can reduce the overhead and delay for vendor to produce watermarked documents.

Deloitte Watermark PDF

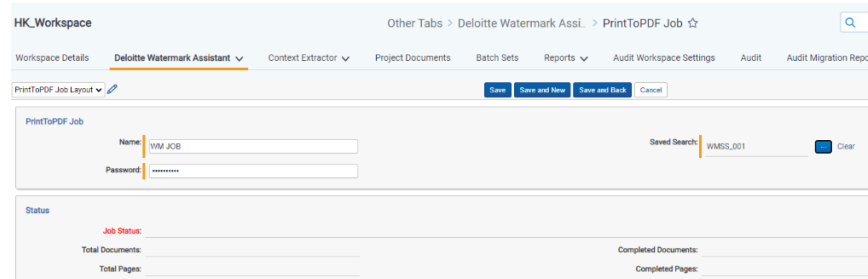

Potential benefits

Deloitte Watermark PDF Workflow

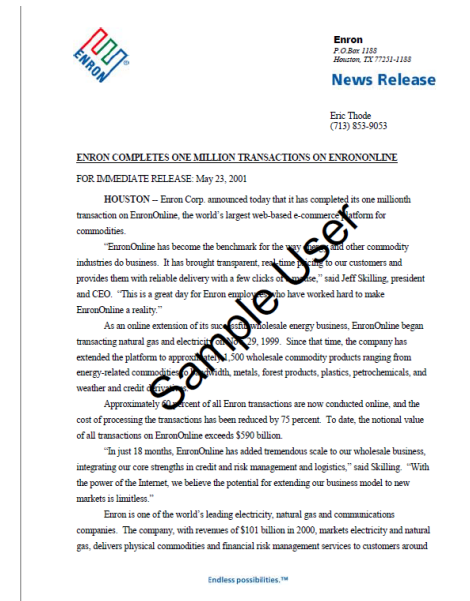

How it works – Imaged documents may be exported individually from the viewer by right clicking and selecting “Print to PDF”. The document will be converted and will open in a new window with the predefined branding.

Documents may also be mass converted by creating a batch job and providing a password to create an encrypted zip deliverable.

#	Name	Job Status	Saved Search	Total Documents	Completed Documents
1	WM_JOB	Complete	WMSS_001	2	2
2	WM_JOB2	Complete	WMSS_001	2	2

The Results – Once documents have been converted, they are available for viewing in a new tab or available for download for batch jobs.
