

SDL MultiTrans TMS Connector

Relativity

SDL*

Power up your eDiscovery with SDL MultiTrans

The SDL MultiTrans connector for integration with Relativity makes content discovery, gisting and translation seamless from the Relativity environment. Navigate and classify foreign language documents, request machine translation, human translation or certified translation the quickest way.

All Languages, One Interface

When diving into an eDiscovery process with multilingual assets, complexity becomes the norm. The costs in man hours and from irrelevant translations can skyrocket easily. Understanding which documents are relevant to each case is key to making the best of your Relativity workspace.

This connector brings the power of SDL MultiTrans automation and SDLs quality translation into the picture. Gist, understand and tag as relevant a myriad of foreign language documents from your Relativity workspace. Once the selection work is done, you can submit the relevant content for translation.

- **Security and Automation**
Machine-to-machine connection automates and secures asset transfer to reduce human error.
- **Relativity workspace enhancement**
Content centralization empowers productivity and research efficiency.
- **Content discovery simplified**
Technical know-how is not required: all your eDiscovery is done within the Relativity user-friendly environment.

KEY FACTS

- 25+ years of experience
- 16,000+ specialized linguists
- 59 offices in 39 countries
- Up to 5 steps of quality control

AT A GLANCE

- **180+ languages** – Source any cross-border content into Relativity.
- **Automation at your service** – Personalized automated workflows connect expert translators, editors and MT engines so you have total control of the process and receive all notifications.
- **Save time and money** – Reuse, edit and manage all your translation projects to save time and costs.

BENEFITS

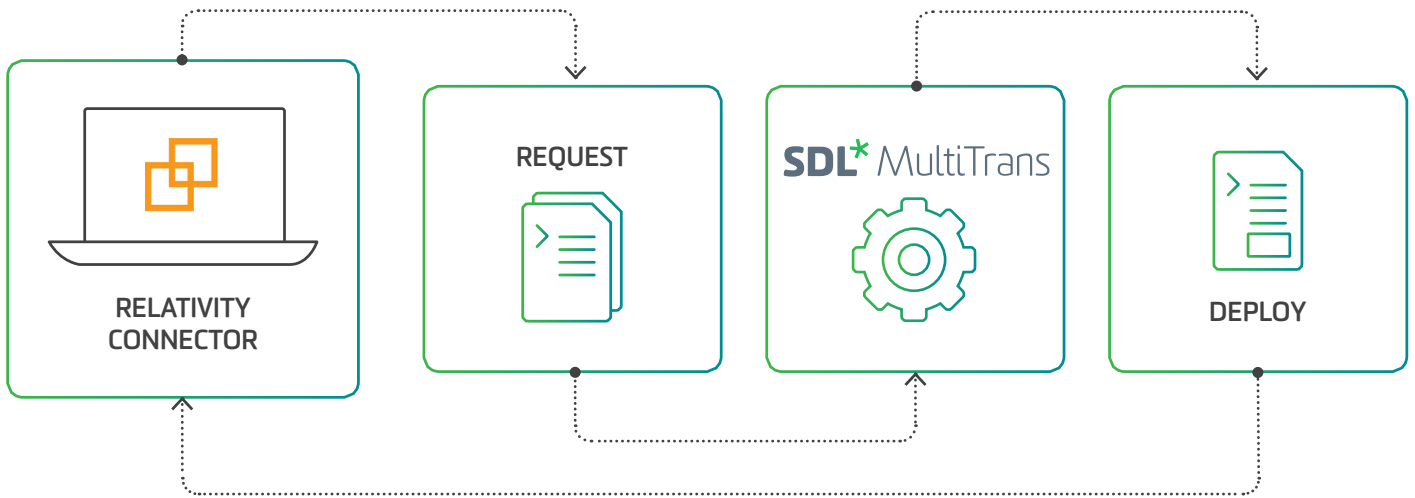

- Machine-to-machine security and data protection
- Content discovery simplified
- Content centralization and ease of use
- Easy quote approval, translation project management and batch translations
- Automated workflows working in the background
- Wide range of high quality linguistic services

TECHNOLOGY

SDL MultiTrans

- Translation management system
- Translation memory
- Terminology management
- Workflow automation
- Web and XLIFF editors
- MultiTrans web proxy
- Machine translation
- Connectors

SDL MultiTrans Connectivity

Any Type of Content, Any Language, Any Culture

TRANSLATION

- Translation, editing and revision
- Back-translation
- Certified and sworn translation
- Client review
- Linguistic validation

CREATIVE SERVICES

- Transcreation
- Copywriting
- Desktop Publishing
- Design

INTERPRETING

- Consecutive Interpreting
- Simultaneous Interpreting
- Transcription
- Voice recognition

NEW MEDIA

- Digital media
- Subtitling and voiceovers
- eLearning
- Software localization, QA and testing
